Mayor Childers Asks Everyone To Support The Red Cross Drive

As Mayor of Whitesburg, I would like to urge every one to give to the Red Cross War Fund Drive that is now in progress. If someone has not seen you, watch for the workers this week and volunteer your offering to this worthy cause. As a town we have never given as much as we could or should to the Red Cross. Let's beat all records this year and show our boys we really appreciate what they are doing and we are ready to help them.

Signed:
S. M. CHILDERS, Mayor.

Service For Our Boys In Service

Last summer several special services were had for our boys in service. The response was so good another such service will be held Saturday night 7:00 o'clock at the Baptist Church.

Archie Reed Fields will speak if he is not called back before then. The high school band will play, and a number of people will have short parts on the program.

Come and enjoy this informal meeting in interest of those who will fight for us.

NAVY SEABEES RE-OPEN RANKS TO RECRUITS

Middlesboro Office seeks Interviews.

Enlistment in the "Seabees", Navy Construction Division, has been re-opened for men between 17 and 50, who have skilled trades. Applicants should apply at the Navy Recruiting Station, Post Office Building, Middlesboro, W. P. Wilson, local recruiting officer announced.

Approved applicants, who are registered with Selective Service will be given letters to their draft boards so that they can be inducted under Selective Service for special assignment to the Navy."

Red Cross War Fund Drive

It makes a difference if we have boys in Service.

The father of two boys in service when asked to help get this War Fund Drive raised in his community said, "I am perfectly willing to do all I possibly can to aid in this great cause. I have two sons in the service for our great Nation, and I know the Red Cross will lend them a helping hand when it can."

The Whitesburg Rotary Club has responded 100 per cent to this call to help our boys through the Red Cross. Other organizations are working on the canvass. Several of the locals in the county are working now to make theirs one hundred per cent in this drive. Some have mailed their contributions, and many are working now to help us reach our goal by April 1.

We want to make Whitesburg's gift the larger it ever has been.

If you have not had an opportunity to give please fill in this blank and mail it.

I am glad to help by giving to the Red Cross War Fund

L. O. GRIFFITH,

Mrs. Curtis Adams Loses Eye Sight

Mrs. Curtis Adams (Nee Vella) Banks) daughter of the late Melvin Banks of Ison, who along with her husband has been working in Detroit happened to the misfortune of losing her eyesight. According to Curtis, Mrs. Adams went to work one day apparently as well as ever and while on the job she suddenly went blind. Mrs. Adams was working under a very high-powered light at the time and was doing close precision work when the tragedy occurred. She was taken the best of doctors who say she may regain her sight and she may not and advised her and her husband to quit work and go for a visit with relatives and friends so as to take the worry off her mind thinking it might help her to regain her sight quicker.

Mrs. Adams is a member of the graduating class of '36 of Whitesburg High School and along with her husband is well-known throughout the county.

Curtis is a brother of Lee Adams of Lee's Drug Store in Whitesburg. Mrs. Adams was employed by the Chrysler Corporation in war work. She and Mr. Adams have one child, a daughter 2 1/2 years old.

Young Lad Loses Legs and One Arm At McRoberts

Alfred Whitt, 11-year old schoolboy of McRoberts, suffered the loss of both legs and one arm on Tuesday when he was run over by an empty freight train headed for work at the mines.

The boy was seen struggling by the road side by a truck driver who immediately summoned aid and rushed the boy to the Jenkins Hospital where little hope is held for his recovery due to the loss of much blood. The train men evidently did not see him.

Young Whitt is an orphan boy having neither father or mother. He made his home with relatives in McRoberts.

Soldier Writes To Sister in Jenkins

PFC. H. HERBERT MULLINS

Mrs. Lindsay Polly of Jenkins received a letter from her brother, Pfc. H. Herbert Mullins who is somewhere in the Pacific. The letter reads as follows:

Feb. 17, 1943.

Dearest Sister:

I wonder how you have been making it for the past while? As for myself I am Okay and much better satisfied at present, for now I can tell you something that I have been wanting you to know.

I don't want to upset you, but I do want YOU ALL to know just what I have been through. I have faced problems that I never thought possible. I have accomplished things that would have been impossible without the help of God. Yes, I have been on the front lines fighting the Japs for a period of time. I fought shoulder to shoulder with some of my best soldier friends that I shall never see again.

I know you wonder what place, but I can't tell you. I wish I could. I have some Jap souvenirs, money, etc., I will send them home later. The only souvenir I am anxious to take back home is myself, but we all have a job to do. Just a very little of my experience would convince all people on the home front that there is a job for them to do.

I have lost some weight, but hope I am in a place to gain it back now.

Please send this letter on to Dad and Mother, I may not have a chance to write to them soon.

Please don't worry about me. I have come safely thru dodging lead, bombs and shell fire so far, and with God's help I will carry on, and see you in the future. If I should go down with a load on my back, my chin will be up, and I'll be fighting like a man.

I will close praying to see you all again in the near future.

Your brother,

—HERBERT.

Rev. J. Marion Blair Co. Tax Commissioner Is Called by Death

Rev. J. Marion Blair, Letcher County Tax Commissioner passed away at his home on Friday, March 19, after a long and serious illness. He had suffered from cancer of the stomach the seriousness of which was unknown to him until a few months ago. For a time Mr. Blair prayed to live that he might serve his people, however when his suffering became too great he prayed to be taken out of his suffering. All of his life he had had the ambition to serve the county as tax commissioner and it seemed that as soon as he reached the goal of his life long dream he hardly served a day in good health. Soon after his election he was stricken and never improved, growing steadily worse all along.

Mr. Blair was an old-time school teacher of the county, teaching for almost 50 years. He resided on Craft's Colly all of his life and taught in that neighborhood.

Dear Mrs. Nolan:

I have vowed a vow that I would write you today and here it is 6:00 o'clock P. M. and I am just starting another full day, a perfectly beautiful spring Sabbath, we attended church this morning at 11 o'clock together with hundreds of others. If one does not arrive at the church at least fifteen minutes early, there is no assurance of a seat. Churches are crowded to capacity every service. We have visited every church here, but like the Presbyterian the best, all services we have attended have been so beautiful in dignity and reverence. We came home, prepared lunch, and have had five visitors this afternoon, the only reason your letter is not written.

Tomorrow we are to spend the day on the beach, fishing

for Pompano, the finest fish Florida "grows". They sell for \$1.00 per pound, wouldn't you glory in such as this? After the men grow tired of fishing off the beach, they are going to deep sea fish for a while.

I must tell you how much we do enjoy the Eagle. Honest, we read every word and toss pennies to see who gets it first, and I find now one of the happiest things I ever did was writing news for that paper.

How we do enjoy tree ripened fruit, and fresh garden vegetables. We pick our own oranges and grape fruit, \$1.00 per bushel, and are they good.

The Temple oranges are especially fine. Every known vegetable we enjoy, since the recent frost we had, beans, peas and limas have doubled in price. We enjoy the fresh cocoanut too, we canvass the town for them, hunting under every palm tree. We have made some lovely friends and Beach parties, fishing parties, pinochle, Eastern Star and Church keeps us pretty busy.

Florida is truly the Land of Sunshine. We have had it every day since we arrived January first. At present we have twelve full hours. Everything is beautiful. Flowers, birds and beauty everywhere.

Airplanes and Blimps fly over and around us constant-

ly, and very often depth bombs dropped in the ocean shakes the very house around us.

We are to have practice blackout Thursday night at 9 o'clock. John found a cap the tide had carried in, bearing the insignia of the Rising Sun, this he turned over to the Coast Guard. We saw a convoy pass a few days ago, it was preceded by a Scout Blimp and heavily guarded by planes, all of which serves to make one think more seriously about the war.

One day last week, some Kentucky friends from Harrodsburg, took us to Lake Okeechobee, second largest fresh water lake in the United States. We saw hundreds of acres of celery, endive, onions, beans, etc. growing in the glades, in soil so black and fine it looks like soot. All of this is interesting and we are both feeling fine, but I wonder if any place will ever be as dear to me as the Mountains of dear old Kentucky and the grand people who live there.

Thank you for every kindness, and hoping to see you fishing in Florida, I am,

Sincerely and with Love,
—ESTHER HILSENBECK

Miss Melba McWilliams of Dunham, Ky., was home last week for Spring vacation from Berea College.

The Dunham School has a nice lunch room now with about 80 children eating each day. The P. T. A. is doing a wonderful work this year.

There will be meeting at Dunham School March 24th for the purpose of organizing a Homemaker's Club. This Club will be of value to everyone interested in the home and garden.

As I sat by a window one evening
My heart with rapture thrilled
As I watched a red winter sun set
Settle down on a rugged old hill.

The day had been cloudy and dreary
The northwinds whistled and sighed
Not the faintest ray of sunshine
Shone on the gray winter sky.

Great trees tall and stately
Like monarchs
With the winds whispered and sighed
Bowed their branches to earth for a message
Then tossed it back up to the skies

To me they painted a picture
Of souls rough and rugged with sin,
Bowing and asking forgiveness
Till the light of God's love came in.

Then the scene seemed to change a moment from
A mountain rugged and rough
A red winter sun set burst thru' the clouds
Transforming a rocky old bluff.

Great Oaks stood straight in the sunlight
Stripped of their leaves bare and bold—
The sage and leaves that had long been dead
Turned a beautiful amber and gold.

On the Mountains God sent
A brief sun set making
Beauty no words can describe
Yet he offers to us the light of His love and this offer
Extends world-wide.

Yes God loves us more than the mountains
Much more he says we are worth
For man he made in his image
Crowned him King over all of the Earth.

When 30 Seconds...
=7,000,000 Minutes

If everyone who uses the telephone talked just 30 seconds less on each local call, the aggregate saving in time for our war-busy equipment would be about 7,000,000 minutes each average working day or over 13 years.

That's important time-saving these days when telephone lines are so crowded with calls, including military and government calls that help fight the war.

Won't you try to shorten your local calls—not just 30 seconds—but all that's possible? It will help a lot, too, if you can manage to make fewer local calls.

Effects of Alcohol On The Body

(Mac Mealer, Winner of 2nd

Place in Essay Contest)

Alcohol causes the heart to beat more rapidly at first. Under the influence of alcohol there is a slight parasympathetic action of the walls of certain blood vessels, particularly those in the skin. These causes them to widen. More blood flows into them. The heart must beat harder and more rapidly to fill them. When the heart has to work harder than usual over a period of time, it tends to grow larger and its walls become thicker. Sometimes part of the muscular tissue is replaced by fat or fiber tissue. The muscular tissue does useful work, the fat or fiber tissue is somewhat like dead wood in a tree. The valves may lose their elasticity and become weakened. The walls of the blood vessels are also weakened. They become thick and lose their power. Sometimes a blood vessel in the brain becomes so weak or brittle that it breaks.

Who wants a body like that?

The American Citizen who drinks liquor isn't very patriotic.

You see why war production is slowing up. When you drink liquor you are not on the alert. Men who work in war plants should not drink alcohol. You cannot work fast. Your brain is practically numbed and you cannot think well.

—MAE MEALER,
Jenkins School,
8th Grade.

Why We Should Not Spend Money For Alcohol

(Amon Willis, Winner of 3rd
Place in Essay Contest)

We should not spend our money for alcohol! It causes more deaths due to accident than any other thing in the world.

In most cases the man that invests a little of his money in alcohol he will increase his investment. This causes many homes to be broken up. The children in these homes have less opportunity for education. Even though the child does not take liquor he is affected by it.

There are many more things to invest your money in, especially in these times. The most important thing today is War Bonds and Stamps. If the money invested in liquor was invested in War Bonds and Stamps we would more likely be winning the war.

If a man says he invests at least ten per cent of his salary in War Bonds we say he is patriotic. But if he invests ten per cent or more of his money in liquor he is unpatriotic and a spendthrift as well. If he spent as much money on War Bonds as he did liquor it would help him and it would help his country as well.

What Would Happen If Grain Now Used In Breweries Could Be Sent To China?

(Peggy Ann Adams, Winner of First Place in Essay Contest)

If grains now used in breweries could be sent to China, war with Japan would be nearer to an end.

The people who live in China have exhausted their food and ammunition.

If grain could reach these people, China would be stronger both mentally and physically. Their war production would be greater and their soldiers more alert and active.

Grain would mean much to a fighting, starving nation like China, whereas, when it is used in breweries in the United States it only serves to weaken our people. Our soldiers are permitted to use it as a means of recreation and diversion but in the end it is to their own regret and sorrow. This type of thing happened at Pearl Harbor, Dec. 7, 1941 as definite proof.

Why aren't people taught all over the world the bad effects of alcohol and the many ways in which grain can be used to benefit mankind?

Look at the crimes that have been committed in the United States from the effects of alcohol. Look at the poor homes, starving children, ignorance, mental cases, physical defects and diseases caused from its use.

Why is this permitted in a country like ours, when the same materials can be used to strengthen and help the people of China.

Francis Dennen, accompanied by Juanita Whitaker at the piano, gave musical readings between acts.

We, the Junior Class, were very glad to give this play and we were honored with a large audience including Sup: of Schools, Martha J. Pottet. We are grateful to the parents, students, teachers, and friends who helped to make the play a success.

The proceeds from the play was eighty dollars. This money will be used to entertain the Seniors.

TO CHARLES E. REED (Now Over Seas)

A war is always horror, from the start until the end. It makes us stop and wonder, If it may have been a friend—??

That plane that fell down from the sky?—

The ship that sank at sea? They may have carried someone,

Whose last thought, was you or me.

We stay at home and buy our bonds

And pray, between each letter:—

"Dear God, it can't be very long—

For things ARE looking better."

"Sure thing, Tim. Here's what I told him, Charlie. There's no such thing as votin' a nation, a state, a county, or even a community dry. We had proof enough of that

during our 13 years of prohibition. What you really vote for is whether liquor is going to be sold *legally* or *illegally*...whether the community is going to get needed taxes for schools, hospitals, and the like, or whether this money is going to go to gangsters and bootleggers. That's the answer, boys... simple as A-B-C."

Dear Eagle:

I will write you a few lines this fine Spring morning, it is just like Spring out here in Louisiana, but I really don't like the country out here. I have been in the service seven months and I have been on maneuvers for 2 months, and it is a tough life. All the farmers are preparing for crops, but the soil is awful sandy out here. I haven't been in a barrack in 3 months. We have 5 man tents in our base camp, but we have only stayed one

week in them in 3 months. My first camp was in Texas. Camp Swift. We were all transferred to Camp Polk, La. I was home on a furlough in December. My home is in the lower part of the county. I am the son of Mr. and Mrs. Leonard Whitaker, a farmer of Letcher county. My home is on Linefork, near Ulvah, and I always enjoyed the Mountain Eagle and I want you to send it to me. We are building bridges, roads. I sleep in a tent with 4 more Kentucky boys, one from Pike county, Kermit Scyck, John Spradlin, Haskel Crank, Jack Pack and all are fine boys. I guess I will close for this time. Please

send me The Eagle.
Yours truly,
—Pvt. Irvin Whitaker.

P. S.—I forgot, it didn't snow here this winter but it rains a plenty out here. All men in my company 38 or over are going home, some left out already and some are going today. We do our own washing and sure have been awful dirty out in swamps in the mud. Some go for a week and a half without shaving. Well I could write a long letter but I will make it rather short. I am 22 years old, single and would like for you all to write me at once, so I could have something to read.

Dear Friends:

I am receiving your paper The Eagle pretty often and sure do enjoy reading it, you know it is a lot of company to read the news from home. The islands are pretty but just give me old Kentucky. There is nothing like Kentucky and

its people because I have met them from all over the world I think.

I am in the Hawaiian Sea Coast Command. I am sending you my new address, I enlisted Oct. 14, 1942 at Washington, D. C. and it is not so bad, some one has to be here, so why not me.

Thanks to my brother, Willard Wright of Seco for having the paper sent to me and don't let it stop coming.

I also have another brother in the service, William F. Wright but don't know where he is just now.

Being as it is late here and early there I will close, hoping to meet you all soon.

HELP ME TO FORGET
—v—

Lord, help me to forget the past,
It's heart ache toil and cares,
The weary road that's been so long
Through all these bitter years.
The trials, disappointment too.
Of every weary step.
Dear father: hear my prayer today
And help me to forget.

I long to lay aside the cross
That's more than I can bear
I've tried to bear it all these years
When it seemed that no one cared
Dear Lord: beat out my "yes-terday."
Their painful sad regrets
Erase them from my tired brain
And help me to forget.

I've just a few more steps to go,
Along life's rugged way.
The cross that I have borne so long
I'll lay aside some day.
In the weary days that yet may come
Help me not to fret,
The toil and heart ache of the past
Lord help me to forget.

by Joe Marsh

Phibbs' house got struck by lightning a couple of nights ago. The fire was soon out though, thanks to the prompt work of the local fire department.

And when Thad goes to thank 'em, Chief Ed Carey simply says, "That's all right, Mr. Phibbs—that's what you pay taxes for."

From where I sit, that's a pert example of how taxes come back to the people.

Take taxes on beer, for instance — more than 2½ billion dollars in the last nine years.

Joe Marsh

Time was when a lot of that went into the pockets of bootleggers; but today it's going for public benefits—to buy things Uncle Sam needs for Victory.

To moderate folks, who like a friendly glass of beer occasionally, there's a heap of satisfaction in knowing that this beverage of moderation is furnishing Uncle Sam with some of the money that he badly needs.

To the Jenkins Family The American Spirit HAS SEVEN FACES

Seven sons fighting all over the world
for the one thing that ONLY
AMERICANS HAVE

These fighters for freedom are the sons of Robert M. Jenkins, formerly station agent at Deatsville, Alabama, who served the L & N for over fifty years. That fifty-year record of loyal service is unusual but he gave to the war something matched by hardly any other parent in America—six fighting sons with the seventh in a war industry.

What inspired this group from a single family to leave to the defense of home and country? What steeled that courageous father to see them go with never a quaver in his last goodbye, never a shrinking from his major sacrifice?

It was the American Spirit! And the sons of this typical American are just seven of one hundred and thirty million of such symbols.

That spirit has grown strong on two freedoms which ONLY Americans have to the full... Freedom of the Individual and Freedom of Industry.

1. Freedom of the Individual means...

Freedom of speech and worship. Freedom to progress faster by working harder, doing more. Freedom to save and venture money, time, or labor, for the sake of greater gain. Freedom to do and dare, to seek the

highest rewards—or, for that matter, freedom to refrain from doing those things.

2. Freedom of Industry means...

Freedom of the thrifty to invest in business. Freedom to seek a fair profit—and to create an enterprise that gives labor more jobs at better wages. Freedom of business to operate under the management of men selected by merit.

It also means freedom to plan, to employ research and invention, to stimulate and supply new wants, to lower costs of production, to do as Free Enterprise has done in raising living standards in the United States higher than those of any other country in the world.

These are the fundamental freedoms—born with America—which have nurtured the American Spirit—given our country its unmatched development. It is that spirit which sustained Robert Jenkins through his long career, and now sustains his seven sons at their wartime posts. Those seven sons are fighting now to maintain those freedoms and all the things for which they stand... fighting for all the things we, too, at home must keep alive.

J. D. Rice
PRESIDENT
LOUISVILLE & NASHVILLE RAILROAD

The L&N, like other railroads which share in today's wartime marvel of transportation, is a product of the American Spirit. Because of this Spirit, the Old Reliable has been able to help mightily in the South's development; aiding alike the merchant, the miner, the farmer, the manufacturer, and (far from least) the laborer; contributing materially in taxes to fine schools, good roads and other public services; serving now the cause of victory for all America.

The Old Reliable... Yesterday... Today... Tomorrow

OUR SONS

Our sons have left us.
They have gone away.
They have gone to fight
For the good old U. S. A.

They have gone to fight
And fight for a cause.
They are fighting for
Freedom, Liberty and Justice for all.

But they will be back
In the days to come
And we will be proud
Of our fighting sons.

So if we all Pray
While they are gone
Jesus will bring them
Safely back home.
